### Huge Fund ToBe Cut in April Pool

Farmers in Six States Will Share in Fund of \$14,437,520. Record Return

Praises Orders

#### Cladakis Says New Top Came in First Month of Operation

New York, May 14 (P)-Dairy farmers in the six-state New York milkshed will share \$14,437,520.09, a record value, for milk they delivered to the New York pool last month, N. J. Cladakis, administrator for the metropolitan milk marketing area, announced today. He said it was a new record for the second consecutive month.

The uniform price of April milk was set at \$2.30 a hundredweight

April milk income will be shared by 57,363 dairy farmers in New York, Pennsylvania, Vermont, New Jersey, Connecticut and Massachu-

"The new peak in vaule," Cladakis said, "was achieved in the very first month of the operation of the Federal-State market orders with restricted diversion payments. Curtailed diversion saved nearly \$200,-

Pointing out that the April rate was 13 cents less than March, the administrator said that the gain over last April's uniform price of \$1.87 was 43 cents, a 23 per cent

938,430 pounds of milk. The volume, however, was somewhat less than anticipated and the increase a year ago was only cent. Last April's pool (1941) contained 576,960,186 pounds.

Although the gain in April deliveries was short of the expected rise of nearly 10 per cent, the farm yield of the current pool is return. The latest pool, moreover, is worth at least \$250,000 more han the previous record return of March, when deliveries weighed

tion payments in the amount of \$523,938.20 will bring the return up to \$14,437,520.09. The return of a year ago with but he will be to \$1.00 to \$1. year ago with butterfat and lo cation payments added in was \$11,-166,763.24. The rise of \$3,270,-

756.85 is a gain of 29 per cent. Cladakis said that the produc-tion of cheese stimulated alike by the government's cheese-making program and the continued diversion payments on milk-used cheese 430 per cent ahead of last year. He said that a total of 54,-975,633 pounds of milk was reported manufactured into cheese

in April was 204,094,393 pounds," Cladakis reported, "a rise of less than one per cent from the previous April. The consumption of fluid cream, continuing under last year, was down 8.9 per cent. Skim nilk yielded the pool a gross return of \$1,070,869.51 for an average value of 17.7 cents a hundred-weight on all the milk in the pool."

#### Simpson May Get Defense Position

supervisors' Clerk Considered for Directorship; Will Fix Salary

Albert Cashdollar of Woodstock. hairman of the Board of Supersors, who has held the position f chairman of the Ulster County Defense Committee since its organization, is disqualified under the law to become director of civilian protection for the couny of Ulster, the newly organized department which will head the unty defense movement

It was reported today that tames A. Simpson, present clerk of the board, probably will be the man to get the designation this evening when the Board of Supervisors meets to place its stamp of approval on the appointment.

Salary for the director will be fixed by the Board of Supervisors since this position under the law now carries a salary and must be held by a person in a position to devote practically full time to the job. Mr. Cashdollar becomes ineligible since the law states that the appointment may not be held by a member of the board. Appointment to the position comes from the chairman of the Board of upervisors and with the approval

In addition to the position of director of civilian protection for the county there is also to be For major construction on the board with the approval of the Board of Supervisors. There is no salary attached to being chairman of the war council, but the chairman is entitled to ex-

A chairman of Community Service as well as a chairman of Volappointed by the chairman of the Board of Supervisors.

These appointments are expect ed to be made this evening when the board meets for its first spring

Under a ruling of the govern-ment there will be but little high-way work this year because of the scarcity of materials. Highway work will be chiefly confined to repair and maintenance and consequently the road program will be a small one this season. Other routine work will be taken up by the board.

#### Permits to Alter Now to Be Made At Local Office

Farm owners who seek to make major improvements to their property and who are prohibited from building in excess of \$1,000 without a permit, under a new regulation must make such application to the County U, S. Department of Agriculture Board. John street, Kingston, instead of direct to the Federal Housing Administration in New York as in the past.

This new regulation went into effect last Friday. For forms and formation applications made to the Farm Bureau office of John street.

Members of the County U.

Department of Agriculture Council are Albert Kurdt, secretary; Harry J. Beatty of Kingston, John Schoonmaker of Accord and Mr.

### Students Pledge Loyalty

country and its flag in the past few days for the district has erected a new pole from which a new flag is being flown. The children stand at attention each morning as the flag is hoisted after which they stand in salute and pledge their loyalty to the flag and country. Mrs. Clara Kynkoop of Kerhonkson is the teacher at the school and reports that the school was without a flag pole for about a year previous.

KINGSTON, NEW YORK, MAY 14, 1942

SAVE RUBBER, NOT TIN CANS

Committee for an intensive campaign in fall must come first. Kingston to gather up all scrap rubber ob-

such action. Instructions received from the as long as he likes. State Salvage Committee states that "it might prove an unhappy mistake to start piling up tin cans in the yards of the homes of Kingston."

The General Salvage Section of the War Production Board of the nation is urging the woman and child in Kingston the seriousness | wood. of the scrap rubber shortage. All are exhorted to search for rubber, no matter how small the piece may be.

The scrap rubber situation at the reclaiming plants is critical. The rubber is needed now, and every resident of the city should commence to search for scrap rubber in their homes and in their yards.

Such articles as old rubber boots and overshoes, hot water bottles, rubberized clothing. suction caps, rubber tires from discarded children's toys, and any parts of old rubber tires and tubes are needed.

The Board of Public Works is urging housewives to put out scrap rubber on their regular ash collection day during the week of June 1. Place it in separate containers so that it can be picked up by the street department and turned over to local junk dealers for shipment to reclaiming plants.

The urgent need for scrap rubber is in order to carry on the country's war program against the Axis powers.

Do your part now.

#### TRAGIC DEFEATS

One of the hardest things for the United Nations to bear, in connection with that long, hard struggle for supremacy in Burma, has been the Burmans' defection to the Japanese. They did not join the Japs in a military way, but their sympathy and cooperation made the Japanese conquest much easier. The British and Chinese, with Burman help, or even neutrality, might have beaten the invaders. Now it will take an immense effort to regain that area, with its access to China and the direct communication between China and India that it could

India apparently will make no such mistake. It understands and fears the Japanese. Yet India is divided against itself and not prepared to make any energetic defense

It has been seen over and over again, in the recent British campaigns against Japanese aggression, that defeats resulting from lack of fighting power at strategic points bring losses far beyond their seeming importance. Britain, while doing an admirable job in Europe, which obviously has been more important, has nevertheless failed terribly in the Orient. So has the United States. And it is not going to be any pleasant romp, winning back those lost areas.

#### SPORTSMANSHIP

Suppose you don't get as much sugar in your coffee as you would like; what of it? Everything considered, you're probably lucky to have any sugar at all, or any coffee. Or any tea. Or chocolate. Taking the world as a whole, today far more people lack such things than have them.

Suppose your transportation is interfered with. Suppose you have to do more walking than you're accustomed to. Suppose you or your son or your father must go into the army. Suppose your familiar world seems in process of being turned upside down.

All this is troublesome and some of it is very hard to bear, for a nation accustomed to ease, luxury and security. But in moments of mental clarity, when resentment vanishes and sportsmanship appears, the natural American spirit rises up and says: "Who are we, to expect freedom from the travails of the rest of mankind?

Normal Americans may go even farther, ball, by a score of 27 to 3,

and admit that perhaps in the past they had TAKING IT ON THE CHIN! more than their share of the good life which all people seek. And they may conclude, in the scriptural words that "to whom much hath been given, of him shall much be re-Entered as Second Class Matter at the Post Office at quired." This is not piety but sportsmanship.

#### AFTER CORREGIDOR

The fall of Corregidor must have made most Americans think, "What! Again?" The Japanese almost have had a victory parade: Thailand, Wake and Guam, Manila, the Malay Peninsula, one Dutch East Indian island after another, the Adaman Islands, Burma, and now Corregidor, with heavy blows threatening Ceylon, India and China. If Americans allowed themselves to become discouraged, this series of victories would be disheartening indeed.

The big enemy, however, is not Japan but Germany. Without German support, Japan New York Telephone—Main Office. Downtown, 2206. Would have been crushed by the combination Uptown Office, 832. of England and the United States, with our two-ocean navy free to concentrate on our island enemies. The navy is not free because of the necessity of patrolling the Atlantic. Like the British, we have been fighting with one hand tied. Demolish Hitler, and both hands are free

Germany has been of immense value to There is a serious shortage of scrap rubber | Japan, Japan has given only moderate aid to in the United States, and the week of June 1 Germany. Japan must be fought and dehas been set aside by the Kingston Salvage stroyed, but Germany is the enemy whose

However, as the past week-end at Princeton. pain in the back was so severe at times he had to main at home, the firm could only pay him for the days he worked. I pointed out further that he could not be a malingerer because even a pension for full he was earning at his regular work.

This man was refused a pension and the pension Mr.s B. Van Kleeck, Mrs. Michael oard was perhaps justified because there was no Parra, Mrs. William Knowles. physical evidence, even by the use of the X-ray, of

Twenty years ago little was known about ruptured disks-the rounded pieces of cartilage that act as cushions between the bones of the spinal column. These cushions or disks when ruptured by injury cause definite pain in the lower back by pressing o the large nerve and some of its branches which extend down the back of the leg.

In former articles on backache I have spoken about these ruptured disks most of which occur in he disks between the last two or three bones of the spinal column. An X-ray usually reveals the rupured disks especially when dyes are used in the

However, it is now known that a rupture of a disk may occur which cannot be discovered by It is called a "concealed ruptured intervertebral disk". In the Journal of the American Medical Association Dr. W. E. Dandy states that he symptoms of low back pain in the midline (of he back) plus pain down the back of one or both legs, pain increased by coughing or sneezing, paricularly if there is a history of injury, is good evilence that an intervertebral disk has been ruptured. Surgery is the usual treatment in these cases.

I am passing along this information in the hope that it may help some low back sufferers, the cause whose pain is not revealed by X-rays or other methods of examination.

LEXINGTON AVE AT 49TH ST

P'WALTE HE

• Now, and after May 18th (when ceiling prices become effective), all A&P Super Markets and A&P Food Stores will continue to give you real low prices on fine foods every day, just as they have been doing.

• The new "ceiling price" regulation will not alter in any way A&P's low price policy. This means that every day at A&P you will continue to get the best foods the markets afford at our lowest possible prices.

· And here is another important fact to remember. FOOD PRICES will NOT BE IDENTICAL IN ALL FOOD STORES on and after May 18th. Prices will continue to differ in food stores on the same articles - just as they have heretofore.

#### OUR CUSTOMERS SAVE MONEY

A&P, during the last eight years, has made big reductions in its operating costs. These savings have been passed along to our customers, so that today they have 9c more of every food dollar to spend than they did in 1933.

It is A&P's policy to continue to conduct its business as economically as possible, thus to give you the utmost for every food dollar you spend at A&P Stores.

SUPER MARKETS

#### Milk Production Lags

Farmer Jones was producing a a rate 31/2% behind his goal of a increase in fluid milk, but the "flush" season is just starting. Dry skim milk is running a little be-hind, too, but it is expected to pick up with the advance in fluid milk production.

The goal for slaughter of hogs is a 14% increase. So far slaughter has been only a little higher, but it is expected to run 15 to 20 percent above the 1941 marketing year by the end of the season. The number of cattle and calves on of the note which Vichy has sent Jones' farm early this year was to Washington regarding the stathe highest on record.

#### Feed is Plentiful

which Agricultural Department officials will be eternally grateful "ever - normal granary. During those dreary years of depression, when there was so much grain that nobody would buy it, the AAA lent money to the farmers and took the grain as security. It was stored in warehouses; and in sealed bins right on the farm, against the day of drought or other emergency.

though corn plantings aren't quite up to the goal there still will be more than enough feed for all our soaring herds of pigs and cattle. Agriculture Department officials are confident Farmer Jones will make the grade

## Grocery Warehouse

Farmingdale, N. Y., May 14 (A)—Any villagers hereabouts who didn't mind a little heat could have had a veritable feast yesterday afternoon when fire swept a large grocery chain's warehouse and cooked canned and packaged foodstuffs valued

by building owner Arthur I. Cohan at \$150,000. To the tune of exploding can and the savory smell of their roasting contents, firemen from wo neighboring communities joined local smoke-eaters in fighting the blaze. The cause was not determined, but the fire leveled all but the front of the sprawling structure.

#### Sears Reveals Things to Come

Local Manager Tells of Changes in Merchandise

A brief glimpse into our mode of war time living was revealed today by G. W. Gathup, manager of the local Sears. Roebuck and Company stone.

Providing a preview of the shape of things to come," life. Gailiup described some of the changes which have been made in the merchandise to be worn or used for the next few years.

The extension research and development programs have resuited in hers made of milk and fur felt; plant brushes of hog bristles and horeshair in stead of 200 per cent hog bristle; part rayon and part woull rugs; glass paint lars to replace the con-tainers: "Victory bicycles using only 31 pounds of steel instead of the 47 pounds formerly used in the conventional model; for boxes so designed that they can be immediately converted into electric refrigerators when freezing units become available, and using only 20 pounds of steel in their conetimuetikon.

Sears, through fits own development program, has found satisfactory aliternates for copper, allum mum, bress, zinc, steel. crude miliber, cork, and other materials of which there is a critical shortage. These fludings have made available to war production more than 9,000,000 pounds of elluminum or the equivalent of 493 heavy bombers or 2,629 fighting planes; 18,076,000 pounds of copper; 29,132,000 pounds of zinc and 666,000 pounds of mickel as well as thousands of pounds of rubber. wood, and other essential mater-

"One of the interesting facts unconered by the search for alternate materials, begun in 1911 when the Sears technical laboratorties were established, was that it many instances there had been no neal reason for using the original mail marterial," started Mr. Gailing. "It had been utilized mainly be cause its use was standard practice in the industry—the original reason for its use had been outmoded, somewhat like the early automobiles which were equipped with a buggy whip socket."

New irrigation projects are being started in Arabia to supplient systems used since the Middle

#### YOUR FOOD-AND NUTRITION

Money spent for food is a wise investment when the food is well selected and properly prepared. Good food is one of the best safeguards of the health of adults and children. It is especially important at this time, as part of the civilian defense program, that adults and children be in the best of health. The homemaker's big task is to prepare meals that are appetizing and that measure up to all the nutritional require-

Lamb is avaliable now all the year 'round in most markets so that it is no longer especially a paper frill on the bone end, from not rest on bone. Place the roast tempting at this time, and be- of lamb is to have the meat pull-

choice for Sunday dinner for the average family because it provides a satisfying feast for one day with plenty left over for other meals.
This makes a lamb roast economical both in price and in time saved on meal preparation. In these days when homemakers are busy with added tasks, that is impossible to the save of the save busy with added tasks, that is im-

### STILL THE SAME HIGH QUALITY ON OUR MEAT!

In spite of the increase in costs of meat during the past few months. we have not lowered the quality of any of the meat items we sell. Now, with price ceilings about to be fixed, we are even more firmly resolved to get for you the best meat possible - meat that will live up to your expectations in tenderness, flavor and all-around goodness. You will find, too, that many of our prices will be well BELOW the ceiling prices, so your budget will be doubly safeguarded.

Model building is excellent escape from the strain of war, according to Clark Pool, president of the New York Society of Model Engineers. As proof, Mr. Pool cites reports from heavily bombed areas of Great Britain which show that, despite difficulty in obtaining materials, model building not only continues, but in many instances models, especially those of railroads, are taken into bomb shelters. The New York society, the largest and oldest amateur model-making organization in the world, maintains in its Knickerbocker building headquarters at 42nd and Broadway, "the crossroads of the world," the country's largest model railroad layout. There are more than 5,000 feet of track, 2,000 feet of which are main line, together with switches, signals and every device necessary for modern railroad-

Almost every trade and profession is included in the membership of the New York society. There are janitors, painters, doctors, dentists, lawyers, business mon, writers, engineers and others all drawn together by a common interest in models. Midget power boats, architectual, airplane, in fact all kinds of models are built by the hobbyists. Those interested in railroads form the largest group. The society's railroad layout is in operation only during the annual two-week show. with real railroads, work goes on tower. continuously. That is, whenever soclety members can find free time from their occupations, which is generally during the evening hours.

ent layout is only about 60 per cent of the compilete plan. It takes eight men to operate the system. There are dispatchers, train orders, time tables as on regular railroads. Not only do society members keep abreast of the times, but also ahead of them. For instance, they were the first to use an intricate push button in and out interlock which at present, gets trains in and out of Grand Central Terminal.

The 1942 show of the society, which closed recently, was its 14th. It is the first in which foreign countries were not represented, that being due, of course, to the world war. In the past, models have come from as far away as Australia. Priorities have their effect on model building as some materials are es-Nevertheless, the model builders are continuing with their hobby, Mr. Pool said, and probably will for the duration.

In preparation for a recital, Edna Phillips, harpist, took a vacation husband and two small children. In a tiny hotel over in the Pocono mountains, she practiced to her heart's content until one day she heard her landlady, a wizened old Pennsylvania Dutch type, explaining to a man inquiring about a room for a friend that she could give him one at a slightly reduced rate because "there's a lady next door who keeps peggin' away at a harp at all hours."

"Oh, my friend won't mind that," the man replied. "He's very near-

Miss Phillips' annoyance changed to amusement, when her landlady shot back sharply, "Well, in that case, I'll have to charge full price." . . .

At one of the night-clubs, an airminded actor, whose conceit is legend along Broadway, was under "Funny thing," volunteered Ed East, "his egotism almost killed him the other night. He was flying over the city when a searchlight picked him up-and the dope stood up to take a bow!"

(Bell Syndicate-WNU Service.)

#### New Zealand Uses Huts To Shelter Soldiers

WELLINGTON, N. Z - New Zesland's army is now housed in portable buts instead of tents.

Large mobilizations of the militis and the national reserve, recruited from World war veterans, created major problems in accommodations. The portable but is the army's answer to the problem of providing living quarters.

The buts have a floor 14 by 7 feet and hold four men. They are constructed of light timber on frames that fold flat for transport. Three complete huts can be carried on one truck.

#### Here's a Soldier Who Is Eager for Action

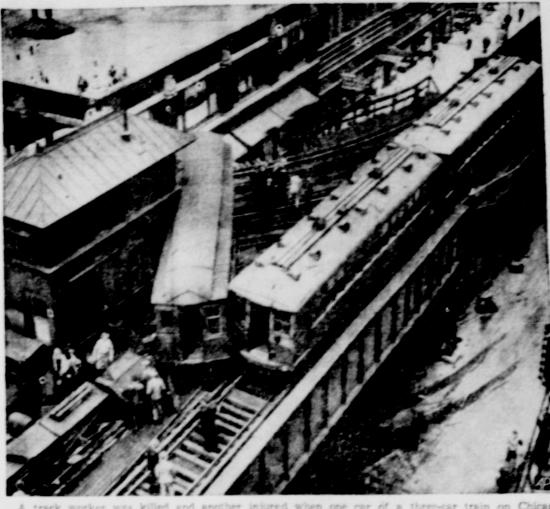

JEFFERSON BARRACKS, MO. -Pvt. Morgan Jin. 18, American Chinese youth stationed at the air corps replacement training cenfer here, explained that the "sneak attack" on Pearl Harbor along with his hatred of the Japanese for their repeated atrocities in China, had led to his enlistment in the army.

Child, Court Hears

New York, May 14(P)-A weed which grows in Cental Park was described in Magistrat's Court to day as having such remarkable curative powers that il completely rehabilitated a three-yar-old girl who was so ill a fewweeks ago she could not walk.

Mrs. Shirley Gurly 26, told Magistrate Peter Abels that she picked the weeds by he bag-full and fed them to her harge, first name Rose, "whose lat name a so long I can't pronoute it."

She said that the dild was to ill of a heart ailment wen she was engaged to care for the child that she could not walk, bit that now

she was perfectly healthy. She lift-ed the child up to the jench so the magistrate might seeher. The child munched one of the reeds as the magitrate said: "That's all well and pod, but you can't pick weeds in the park with-out a permit." He gate her a sug-

nded sentence. Mrs. Gurly explained that the child would not eat spinach, let tuce or other vegetales, "but she loves these weeds, thich my mo ther, who raised a bg family, told

parts. A firew-through sash from Are Centuries Old Frescoes painted during the fiest Brescien achool are being brought

> to light in the Church of St. Francis of Brescia. The church, which was constructed 250 years before the discovery of America, has been declared a national monument by the ministry of

> When built is 1202 the walls of the church were nude of paintings. Attentive research work now has he walls of the edifice.

Among the freezons the most important from an artistic point of view is a portrait of St. Elizabetic believed to have been painted by an unknown entist of the Fourteenth century. The frail, clam-eyed kneeling saint is painted in vivid colors and delicate lines. St. Elizabeth daughter of Andrew III, king of Hungary, died in 1281 and was cenomized in 2285.

Another freezo which adds proof to the belief that the Franciscan fathers had founded a university in Brescie has been discovered between the second and third sitter on the right wall of the ancient church. It shows three rubicund Franciscan monks teaching a group of students.

MRS. DOUGLAS MacARTHUE ... Never forgets a friend.

Ship Christenings In ancient times when a new ship was launched the libetion for pouring of wine) was practiced, consecruting the ship to the got whose image she bore. The action of blessing ships is alluded to by the monks of St. Denys, and records of ship christenings are found as far back as 1618 when the bishop of Bangor was sent to Southampton, England,

to biess the king's ships for successful voyages. On October 20, 2797, the Constitution, first U. S. nevy ship launched, was christened by an officer who brake a battle of wine over her prow. Champagne probshily is used because it is a rare and expensive wine and authorite, therefore, for such an important soca-

## New War-Time Conditions Are Bringing Big Want-Ad Results

## Races in Both Leagues Softball to Open Are Becoming Feverish; Browns Buy Dahlgren open with the first game being played between the Clinton Avenue and Fair Street teams at the Loughran Park diamond. Games

Cleveland Halts Yankees Seven-Games Streak; Brooklyn, Pirates Also Win Games

By JUDSON BAILEY Associated Press Sports Writer

esia tion rom ugs.

The St. Louis Browns, who have bsolutely no money to spend proding homes for transient ball ayers, have just purchased for h a well-known and well-traled combination first and third seman named Ellsworth T.

Babe) Dahlgren. The Browns already have a talnted first baseman in little eorge McQuinn and an equally ompetent third-sacker in Har-Clift and no mirrors are needto see that the Brownies have mind some sort of a deal... This might assume any one of

number of shapes, because at time or another almost every ib in the American League has wn an interest in both Clift McQuinn. But the most likevashington, Detroit or Chicago. three of these clubs could use t to advantage. The market McQuinn has cooled off, but me National League clubs, notthe Boston Braves, could use and waivers no longer seem obstacle to inter-league trad-

he chances are the Browns will old a private auction while the ennant contenders get steamed to a prosperous pitch. Right w the races in both leagues are coming feverish.

cleveland Indians halted e New York Yankees' sevenme winning streak yesterday, to 2, and moved within a half me of the American League eaders. Lefty Lovill (Chubby) Dean pitched six-hit ball and andcuffed all the world chamons except Joe DiMaggio, who it his sixth and seventh home

The Detroit Tigers continued a bloodthirsty third, just a game and a half from the lead, by whip-ping Washington, 6 to 2, on the ree-hit hurling of Hal Newouser. The Senators' only scorng came on a two-run homer by Bob Estalella. The victim of the Figers was Buck Newsom, their mer teammate who had pitcha one-hitter against them pre-

The National League squabblwas about equally furious, Curt Davis, the old righthander of the Brooklyn Dodgers, pitched a two-hit spectacle to turn back Cincinnati Reds, 4 to 0. He etired the Reds in order during he last six frames after his mates ad taken advantage of John Van-

der Meer's wildness to provide an early lead But the Pittsburgh Pirates, who pened a three-game series at today, remained 21/2 games in the rear by downing the New York Giants, 3 to 1. Max Butcher and rookie Dave Koslo waged a fine pitching duel till the Pirates scored three runs the seventh on three hits, one f them a double by John Bar-ett with the bases loaded. Manager Frank Frisch of Pittsburgh vas tossed out of the game by an mpire for the third time in a

sion at the plate. The day's most sensational invidual performance was contribted by big Jim Tobin of the oston Braves, who not only pitchpitchers. His teammates made errors behind him, but Er-Lombardi and Eddie Miller

so hit home runs. The St. Louis Cardinals, who ave been held to two runs in hree games, unleashed a 15-hit ult to beat the Phils, 9 to 1, old Lon Warneke pitching

The Philadelphia Athletics caped their fifth straight victory y a 10 to 9 count from the rowns and ousted Washington om fifth place in the American

The affair at St. Louis was a free-for-all that saw the two

ams use ten pitchers and four catchers and make 28 hits and Seven errors.
The Chicago White Sox set

down the Boston Red Sox, 2 to 1, ten innings for their third vicy in four games. Broadway harley Wagner and Johnny amphries waged a scoreless ching duel till the ninth, when team scored once. Then Myril Hoag singled across the winning tally in the extra frame.

three homers that gave the Braves a 6 to 5 victory. Toolin hit his homers in consecutive times at bat in the fifth, seventh and eighth and Dick Bunny had a 47-45 for a 92, while "Viv" Allen had 49-41

#### **Bowling Congress** Is Writing Checks For 9,459 Winners

A complete list of awards, totaling \$253.895 and ranging from \$5 94. Lee Boice, even though he to \$1,500, will be announced in a week and checks will go into the week and checks will go into the through with three points and through with three points and through with three points and through with three points. 6½ mails shortly afterward. But most Wonderly with two and H. Boice of them won't return for some one and a half. give every friend an opportunto view the voucher.

Officials said that every year one per cent of the checks are not cashed, despite a plan for returning them to contestants after they have been cancelled. Winners may obtain the drafts for souvenirs by writing A.B.C. offices in Milwaukee, listing the check

number and the award. The 72-day 42nd annual tournament, biggest in A.B.C. history, ended unspectacularly yesterday as eleventh-hour attempts to displace top contestants failed. The Chicago Budweisers took

\$1,500 top money with a score of (10). Edward Nowicki and George Baier of Milwaukee copped doubles laurels with 1,377 for \$600; John Stanley of Cleveland had 756 for high in the singles and \$300, and Los Angeles, outpointed Jorge Tod Moskal of Saginaw, Mich., Morelia, 140, Mexico City, (6). won \$300 first place money in the

all-events with 1,973.

The A.B.C. goes to Buffalo, N.
Y., next year and will be limited to 50 days. More than half the 4,500 teams which will be permithave filed applications.

### Setting Good Mark In Armed Services

Wide World Features

Chicago—A survey of the 1940 All-Big Ten football team reveals it is doing its share in the armed forces. The team was made up of Ed Frutig of Michigan and Dave Rankin of Purdue, ends: Bauman, Northwestern, tackles; Ralph Fritz, Michigan, and Joe Northwestern, guards; LoKanc, .462 Paul Hiemen, Northwestern, cen-.480 ter; Don Scott, Ohio State, quar-

> and George Franck, Minnesota, halfbacks, and George Paskvan, Wisconsin, fullback. Rankin, Franck and Frutig are naval-aviation cadets; Scott is an army air corps officer at Randolph Field; Harmon is a flying cadet, Paskvan and LoKanc are training for commissions as specialists in the naval aviation physical training program: Odson and Bauman will graduate this June and the former will enter Great Lakes

terback; Tom Harmon, Michigan,

Louis-Pastor Bout

New York, May 14 (AP)-Promoter Mike Jacobs is seeking approval of army officials in Washington for a third meeting between Heavyweight Champion Joe Louis and Bob Pastor. If the army permits Private Louis to train for the bout, it probably will be held either in New York or Chicago late next month, with proceeds going to the army emergency re-lief.

Season on Monday Mason of Saugerties conducted

### Rampant Horse Kills

Tappan, N. Y., May 14 (A)-Miss Maude Herterich, 42, assistant librarian in the comptroller's office of the American Telephone & Telegraph Company, New York city, was killed today when a farm horse she was petting went berserk and crushed her to death.

The accident occurred on the farm of Miss Herterich's cousin, Roy Henninger, where she had gone to see his new farm horses. She walked up to the stall of one of them, extended her hand to pet him, and pulled back as the horse reared up at her. The horse broke from a halter,

thewed her ears, tore at her fingers, and finally pinned her to the ground. Then the horse ran from the farm for more than two miles, where Orangetown police cornered and destroyed it.

Miss Herterich died before an

ambulance could transfer her to an Englewood, N. J., hospital. She was a resident of Sparkill, nearby community.

Accepts U.S.D.A. Position Ithaca, N. Y .- Dr. P. J. Findlen, instructor in marketing at the New York State College of Agriculture, has accepted a position with the extension service of the S.
